		pearing on the requisition (Form No. 88) to-
		gether with appropriate depot identification symbol. Example:
STATINTL		25640-55-FVl (identifies cargo as the first partial from
		25640-55-FV2F (identifies cargo as second and final partial)
В	Requisition No.	Complete requisition number as it appears on
		Form No. 88.
С	Date Required (Date required at destination	The date indicated on the requisition.
D	Date Packed	The date the packing is completed.
E	Via	For internal use of Transportation Division,
		Cargo Branch.
F	PageofPages	Page No completed after last item is
		listed on shipment.
G	Material Cost Code	As indicated on requisition.
H	Type of Cargo	As determined by classes of stowage or storage
		as follows:
		VEHICLES: Since a shipment of vehicles may be
		split by forwarding agencies into different
		groupings, a separate shipping document for
		each vehicle is required. In the case of an
		unboxed prime mover and trailer, each will
		be covered by a separate Shipping Document.

BLOCK TITLE

INFORMATION ENTERED

Warehouse equipment, if not motor propelled, will not require individual documents. Motorcycles and bicycles do not require separate documents. WET CARGO: Liquid and other goods that are wet or moist and may damage by leading onto other cargo. Includes such items as oils, vinegar, honey, salt, meats, and other fluid items ordinarily shipped in wooden barrels or casks. Subsistence and other items in tin or glass containers which are enclosed in wooden or fiber boxes will not be classed as wet cargo. LABEL OR DANGEROUS CARGO: Explosives, inflammable liquids, inflammable solids, oxidizing materials, corrosive liquids, compressed gases, combustible liquids, poison, etc., Label cargo usually bears the following colored labels: red, yellow, white, green, or poison gas label. Separate Shipping Documents will be prepared for each label and for gasoline. For questionable items, refer to "Explosive or Other Dangerous Articles on Board Vessels", published by U. S. Department of Commerce.

BLOCK TITLE

INFORMATION ENTERED

REFRIGERATED CARGO: Items which must be maintained at cool temperatures will be segregated from those requiring chilled temperatures and each must be covered by a separate Shipping Document.

SPECIAL CARGO: Items which require special handling or protection because they are extremely fragile, sensitive, secret, valuable or subject to damage by temperature variations, such as watches, precision instruments, secret items, gold, and certain medical solutions. GENERAL CARGO: General Cargo will include all items other than those referred to above. Attention is called to the fact that many items of general cargo are marked "GLASS" or "FRAGILE". While the handling of these articles requires caution, such items are not special cargo and are not to be confused with those that require separation and special handling, such as watches and precision instruments shown under Special Cargo.
